

Happy Holidays
December 2023

During this holiday season, we reflect on all the gifts, encouragement, and support RF received from volunteers, donors, partners, team members, friends, and family.

Wishing You Seasons Greetings

REGENERATIVE

FARMS

Mindanao, Philippines,
Tribes & Natures Defenders

In 2023, our
Network of
Regeneration
Hub Partners
plant more than
100,000 life-saving
trees!

'Tis the season of Joy at DNRC in eastern Kenya, and we give thanks for the Nov. rains that helped our thousands of fruit trees and moringa seedlings to thrive in their new homes!

'Celebration of Meru agro-pastoralist indigenous dance and food at DNRC in eastern Kenya.

In the Peruvian Amazon, at Camino Verde, we share hundreds of native tree seeds and pass along our indigenous knowledge to our neighbors!

Camino Verde,
Peruvian Amazon

In the DRC, at APAA, we share knowledge of
how to grow our nutrition from food forests.
We grew and distributed 20,000 tree seedlings that will
yield decades of food security and better health in 7 Villages

We Pray for Peace on Earth and planted 20,000 trees in the DRC

Democratic Republic of the Congo, APAA
trained 300+ families

Woman's Food Forest Garden in DRC

New Year!

We wish you a Prosperous

In the Philippines, Tribes and Nature's Defenders planted 20,000 native trees. We continue to raise awareness and fight to protect our ancestral lands and indigenous traditions.

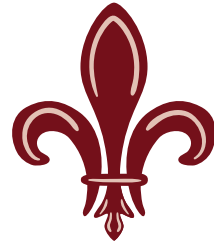

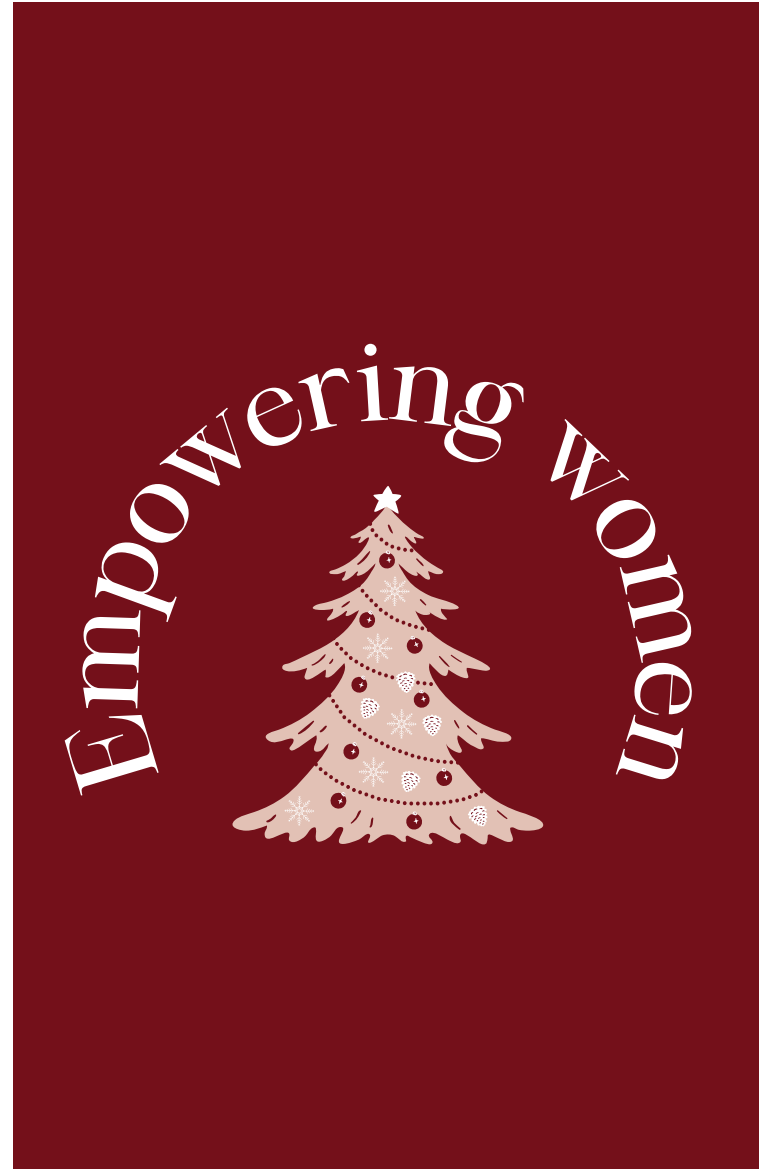

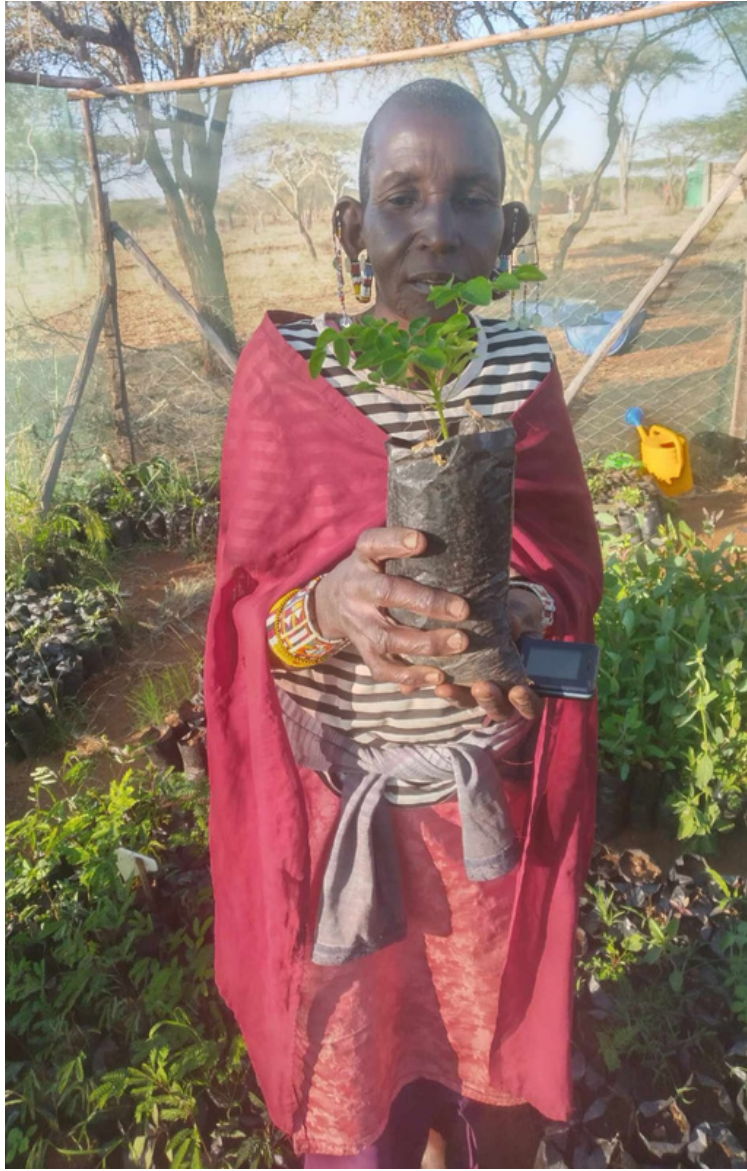

Maasai Centre for Regenerative
Pastoralism in Kenya

In Ejiado County Kenya, MCRP is collecting native seeds, planting and tending them in our new nursery, and restoring our degraded lands bringing back important habitat for endangered species and protecting our traditional way of life.

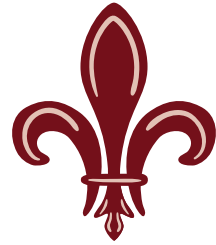

Growing Resilience

Teaching Nutritious Trees

In Indonesia, we grew our rainforest products business, expanding our processing facility and ability to support more families in protecting our biodiverse forests.

In Roatan Honduras, we planted 5000 fruit trees and grew our island's food security.

In Indonesia, we grew our rainforest products business, expanding our processing facility, increasing our ability to support more families & protect more of our biodiverse forests.

Training of trainers on Syntropic Agroforestry by Centre for Sustainable Communities, Adzokoe-Peki, Ghana. CSC with donations from Trees that Feed Foundation, offered breadfruit seedlings to attendees, and RF provided scholarships to enable increased participation by women farmers.

In Haiti, Womenful Voice is partnering with women farmer's associations and school children to reforest the river banks along the northeastern Haitian border in Ouanaminthe.
